[Biometric Residence Permit \(BRP\)](#)

The entry stamp you received on entry into the UK provides evidence of your right to stay in the UK but is valid for the first 6 months only. To extend your stay for up to the 3 years allowed under the Homes for Ukraine scheme, you will need to apply for a Biometric Residence Permit (BRP).

A BRP is a card with your immigration status on it. You can use it to prove your right to study, work and claim any benefits you are eligible for.

If you used the 'UK Immigration: ID Check' identity app when applying for your visa, or visited a Visa Application centre abroad to give biometrics, then you automatically applied for your BRP as part of that and should be able to collect it on arrival in the UK from your nominated Post Office. Check your Permission to Travel email for full details on how to do this and what documents to take with you.

If you did not use the 'UK Immigration: ID Check' app when applying for a visa, then when you arrive in the UK, you need to [Apply for a BRP](#)

This needs to be done within 6 months of arriving. If you need to leave the UK and re-enter, then it's essential to have a BRP first.
